

Name: Tery Thepaceistoofast

Date: 12 Sept. 2014

Workstation Number: 7

Initial Results/Observations/Data

You can include whatever results you obtain. You can also do any scrap work or calculations in this initial section. Using tables are fine. IT DOES NOT HAVE TO BE DONE NEATLY. When you leave the lab make sure this section is signed by the Lecturer, Instructor or Demonstrator. This section will not be signed if your workstation, **centre bench** and **fume hood** is not in proper order.

Title of Experiment:

Aim/Objective:

Procedure: Write in point form (past tense)

Results/Observations/Data: Rewrite your results neatly

Calculations:

Discussion:

Conclusion:

Additional Exercises: If some of the additional exercises were done in the calculations, make reference to them.
